

## AGAIN IN MESSINA

Fresh Shock Destroys Big  
Cemetery There

## RUSHING THE BURIALS

A Plan to Inter 1,000 Bodies a Day in  
Pits—Ambassador Griscoff Off—  
Goes on Relief Ship and Plans  
to Meet the Fleet.

Rome, Jan. 8.—A further earthquake shock has destroyed the cemetery at Messina, which with its orange groves and magnificent monuments, was one of the most beautiful in Italy.

Ambassador Griscoff and a specially trained staff are on the relief steamer Bayern at Civita Vecchia. The ambassador will go to Messina on the Bayern and await there the arrival of the American fleet from Port Said. He will return with it to Rome, via Naples.

The only news arriving here now from Messina is from official sources, as the evacuation of the city is now almost complete and nobody is allowed to enter. Orders have been given to hasten at any cost the work of burying the dead.

### To Bury 1,000 a Day.

Eight long pits for the reception of the bodies are dug daily, one in each zone. Soldiers are doing the interment and it is hoped they will be able to bury at least 1,000 corpses daily, otherwise even the troops will be forced to evacuate the city in consequence of the conditions.

A meeting of survivors was held at Messina yesterday under the presidency of Deputy Fucini. It passed unanimously a resolution asserting the necessity, from a historic and national point of view, that the city be rebuilt, and also expressing the conviction that Parliament would be interpreting national sentiment and the wishes of the civilized world if it should, by efficacious measures, insure Messina fresh life.

There are others who say, however, that it will be impossible to build the city on the same site.

So far the relief contributions cabled from the United States amount to \$800,000.

The following named persons, who had been reported missing, have been found safe at Taormina: John Wright and wife, Miss Eleanor Wood, Miss Bockins, Mr. and Mrs. Williams, Mrs. Kennedy, Miss Pittfield of Philadelphia, Miss Stedman of Delaware, Charles King Wood, Helen Marshall Trenton and Miss Fagan.

The only native Americans, who, it is feared, were in Messina at the time of the earthquake and are still missing are Mr. and Mrs. Roberts. It is believed they were at the Hotel Victoria, and possibly they were killed.

### Call Messina a Charnel House.

The newspaper correspondents, who are returning from Messina, show signs of the privations they suffered. They describe the ruined city as an uninhabitable charnel house, where it is impossible to even buy a piece of bread without an order signed by the military commander.

A living prisoner, thought perhaps to be the last survivor to be rescued, was

## Peptiron Pills

Improve the blood, tone, strengthen the stomach, aid digestion, and give more sweet, natural sleep. They are chocolate-coated, acceptable to the stomach and easily assimilated, and the best medicine for anemic, pale, nervous and dyspeptic men, women and children, and all sufferers from the effects of the strenuous life of today. Price 50c. or \$1.00 of druggists or by mail, C. H. Wood Co., Lowell, Mass. If made by Wood's 11th Street.

taken late Wednesday from the ruins of Messina after being held pinned down in the wreckage, unable to move, without food or water, and exposed to the wet and the cold for nine days. It was reported unlikely that the victim would live. He was the last found of ten taken out Wednesday. Almost all those taken out living as late as the past few days have died within a few hours after their relief from entombment.

The quantities of food arriving now in Messina have alleviated the hunger of the refugees still remaining on the scene. Rations were reported Wednesday to be sufficient for the immediate needs both of Messina and Reggio. Many smaller places inland are still unrelieved, none the less, through the impassable state of the mountain roads since the upheaval.

The vessels plying between Messina and Naples continue to bear away refugees, as fast as they can be carried from the desolated city.

There are now thousands of Messina and Reggio refugees in Genoa, Milan and Rome, besides the great throng in Naples. The cities of the north have been called on to take their share of the overflow for whom Naples could offer no sufficient refuge.

Millions in securities and large sums in currency were reported recovered on Wednesday by Gen. Mazza in a search for the strong boxes of the Messina financial institutions. At the same time great sums in securities are certain to have been lost in Messina. The city was accounted a holder of \$90,000,000 in government bonds alone. In the case of many of these missing securities it will be impossible for the owners, if surviving, ever to establish their claims.

Gen. Mazza, in command of the relief work, reports from Messina that in all over 2,300 persons have been taken out living from among the ruins. Although the probability of finding more imprisoned survivors is increasingly small, the work is to be continued, he states, until survivors cease entirely to be found.

The latest tables place the total loss of life by the calamity of Dec. 28 at 165,000. Messina alone, with its surrounding commune, is found to have lost 108,000 out of a population of somewhat over 150,000. Reggio and its commune, it is estimated, lost 31,000 out of 45,000 inhabitants.

### Total Dead by Earthquake Is Now Figured at 164,850.

Naples, Jan. 8.—The appended list, which is necessarily incomplete, of the destroyed Sicilian and Calabrian towns and villages approximates the casualties of the earthquake: Messina, 108,000; Reggio, 31,000; Palmi, 4,500; Mileto, 2,300; Baginara, 800; Villa San Giovanni, 2,700; Palicci, 2,300; Scylla, 2,800; Gallico, 800; Cannitello, 950; Garzi, 348; Bova, 380; Villa San Giuseppe, 520; Torre di Faro, 300; Poligro, 310; Solano, 280; Seminara, 300; Contessa, 167; Semiatello, 250; Santa Teresa, 300; Novara, Santa Lucia and Nizza, 800; Castoreale, 80; Canneto, 200; Zianfrilla, 300; Cusma, Cremeniti, Muniolo, Giardina, Tripiolo, Mili and San Michele Bordonaro, 650; Ceramita, 330; San Procopio, 105; Pisturino, Tremestieri, Gualbieri and Spadafora, 61; Callina, Lazzaro, Calama and Rosali, 575; San Roberto, 200; Podestegoni, Salice and San Gregorio, 200; Montella, Iomice, Motta San Giovanni and Melina, 270; Scrozzina and Solane, 74; total, 164,850.

### EXPERTS IN HAINS CASE.

The Defendant Himself Leaves the Stand.

Flushing, N. Y., Jan. 8.—After many hours on the witness stand where his story of the killing of William E. Hains was probed in its most minute details, Thornton Jenkins Hains was excused yesterday from further examination by counsel for both sides. Hains showed signs of great depression as he took his seat beside counsel on leaving the stand. His examination by the prosecutor was not calculated to help his defense, according to the state's attorneys, who claim that his confused statements on numerous points of his direct testimony prove that his story is untrue in many of its essentials.

Medical testimony regarding the sanity of Captain Hains will consume the afternoon session.

"I have told the truth to the court," said Thornton Hains, "and Mr. Darrin has not forced me to deviate from it. When I could not remember the small details—a broken sentence, an insignificant action—I have frankly said so. My story in the material points is unshaken and will be believed. Men are not convicted for failure to recollect some inconsequential utterances of a few days past."

Prosecutor Darrin will conduct the cross examination of Hains' medical experts under the coaching of Dr. Austin Flint, who was one of the central figures in the array of alienists at the Hains trial. Justice Crane insists that all the evidence in the case must be in by Saturday night.

### PLOT AGAINST MANUEL.

The Portuguese King Is Warned at a Banquet.

Lisbon, Jan. 8.—During a banquet given by officers of the army in this city Wednesday night, at which King Manuel was present, a lieutenant publicly warned him of a plot to depose him. The officer declared further that the king was surrounded by spies and traitors. Extra guards are on duty around the royal palace to-day.

### 44 BELOW AT LAKE SUPERIOR.

Frost Is Also Predicted for Northern Florida.

Washington, Jan. 8.—Featured by a drop to 44 degrees below zero north of Lake Superior, a snow storm in this section, threatening weather in the South, with freezing temperatures and frost predicted for northern Florida and Georgia and Carolina coast, a cold wave yesterday stretched over the entire country east of the Rocky mountains.

PILES CURED IN 6 TO 14 DAYS  
PAZO OINTMENT is guaranteed to cure any case of itching, blind, bleeding or protruding piles in 6 to 14 days or money refunded. 50c.

## FLOWAGE BILL DISMISSED

Doubt as to Constitutionality  
of Proposed Law

## GIVING EMINENT DOMAIN

To Individuals in Developing Water  
Power and Making Railroad Com-  
mission the Tribunal to Decide  
Necessity for Such Action.

State House, Jan. 8.

The bill to allow individuals the right of eminent domain in taking lands by reason of the flowage to develop water power and making the railroad commission the tribunal to decide the necessity of such action for the public good, House 508, was dismissed yesterday afternoon upon motion of Mr. Pinney of Bridge-water. Mr. Fletcher maintained his point of the unconstitutionality of the proposed measure, reading a written opinion from Attorney General J. G. Sargent in which he gave it as his opinion that the bill was unconstitutional in the 10th section, in which mill owners were exempted from the provisions of the act. The opinion stated that the right of eminent domain was only allowed when the seizure of land was necessary to the public welfare and that heat, power and light from water power were not in his opinion necessary.

Mr. Fletcher also went on to say that the general public policy of allowing these rights to individuals that were given to public service corporations was dangerous, as it would have a tendency to take away privileges from corporations of a public utility nature and drive them into private ownership and control.

Mr. Fish of Vergennes did not believe there was too much weight should be placed on the opinion of the constitutionality of a measure and said that he understood that the former attorney general could find no grounds for the unconstitutionality of the proposed measure. Mr. Leary of Burlington also took issue with the opinion of Mr. Sargent and read the opinion in a Michigan case which placed a not very stringent interpretation of

## Helpful Hints on Hair Health

Scalp and Hair Troubles Generally Are  
Caused by Carelessness.

Dandruff is a contagious disease caused by a microbe which also produces baldness. Never use a comb or brush belonging to someone else. No matter how cleanly the owner may be, these articles may be infected with microbes, which will infect your scalp. It is far easier to catch hair microbes than it is to get rid of them, and a single stroke of an infected comb or brush often produces the cause of baldness. Never use anybody else's hat, for the reason that many a hatband is a nesting place for microbes.

If you happen to be troubled with dandruff, itching scalp, falling hair or baldness, we have a remedy which we positively know will cure these troubles, and we are so sure of this that we offer it to you with the understanding that if it does not produce the results we claim, this remedy is called Rexall "93" Hair Tonic. It is the most scientific remedy for all scalp and hair troubles, and we know of nothing else that equals it for effectiveness. We know this because of the results it has produced in hundreds of cases.

Rexall "93" Hair Tonic will positively banish dandruff permanently, restore natural color when it has been brought about by disease, and make the hair naturally silky, soft and glossy. It does this because it stimulates the hair follicles, removes dandruff, destroys the germ matter, and brings about a free, healthy circulation of blood which nourishes the hair roots, causing them to grow and grow new hair. We want everybody in Barre who has any trouble with hair or scalp to know that Rexall "93" Hair Tonic is the best hair tonic and restorative in existence, and no one should scoff at or doubt this statement until they have put our claims to a fair test, with the understanding that they pay us nothing for the remedy if it does not give full and complete satisfaction in every particular. Two sizes, 50c and \$1.00. Rickert & Wells, The Red Cross Pharmacy, Miles granite block.

WHAT A BOON  
GOOD EYESIGHT  
REALLY IS!

No one sense of the five is so indispensable. And yet how many people abuse their eyes—thoughtlessly, perhaps—but abuse them just the same.

You who read this may be guilty of the offense—Are you?

Tuesdays and Wednesdays  
at E. L. Taylor's Optical  
Parlor, 9 Morse Bldg., Barre.

the word "necessary." He said that the supreme court had found three distinct defects in the flowage law now on the statute books. He did not believe the House should place too much weight upon the fear of passing a bill that was unconstitutional.

The business of the House moved slowly and when adjournment was taken there were a few minor bills on the speaker's desk to be disposed of. He urged the committees to report so that there would be business on hand for Friday. Some of the big measures are still pending in the committees' hands.

As anticipated, Mr. Fletcher from the committee on conference from the House on the printers' bill, reported that they could not agree with the Senate committee. The report was accepted. As it stands now, the printers cannot collect anything unless the Senate accedes to the House's basis of settlement.

The adjournment committee reported that it was impossible to set a date for final adjournment until certain important measures were disposed of.

The Senate was in session a longer time than the House yesterday afternoon. The principal business was the killing of the bill, 16 to 13, allowing the dumping of sewerage into Lake Bomoseen. The bill was advanced to a third reading on Wednesday. An amendment was presented to have the same apply to all the waters of the state, and this was responsible for the death of the measure largely. Senator Gleason read the present law and said that he could see no reason for the law and amendment proposed. Senator Kidder replied that the law on the statute books now which forbade dumping sewerage was unconstitutional according to good legal talent.

### Third Reading Refused by House.

H. 297, relating to the regulation of canals.

H. 459, to appropriate for dredging and deepening the outlet of Lake St. Catherine.

H. 487, relating to the office of road commissioner of Bennington.

H. 490, relating to the limitation of actions against towns.

H. 525, to amend an act incorporating the village of Northfield.

### Third Reading Ordered by House.

S. 126, as amended, relating to chattel mortgages.

S. 138, to incorporate the Central Telephone company.

S. 99, to provide for the equipment of the storage vault in the State House.

S. 139, relating to fire escapes.

S. 130, to appropriate money for repairs and improvement of the state hospital for the insane.

S. 95, relating to the practice of medicine and surgery.

### Passed in Concurrence.

S. 134, to incorporate the North Troy Electric Light and Power company.

S. 137, to incorporate the Montpelier and Essex Traction company.

S. 139, to amend an act incorporating the Northern Telephone company.

### Bill Introduced in Senate.

S. 155, by committee on insurance, amending the charter of the Vermont Mutual Fire Insurance company. Ordered to lie and be printed.

### Third Reading Refused by Senate.

S. 113, relating to the sale of intoxicating liquors.

### PLEA FOR NIGHT RIDERS.

The Counsel in Argument Scores the Governor.

Union City, Tenn., Jan. 8.—Rice Pierce, senior counsel for the eight alleged "night riders" on trial for the murder of Captain Quentin Rankin, was severely reprimanded yesterday by Judge Jones. Mr. Pierce was preparing to close his argument for the defense and was discussing the testimony of Fehring, Hogg and Morris, "night riders" who turned state's evidence. He began a violent denunciation of Governor Patterson, saying:

"I do not approve of crimes. I denounce murder, which is cowardly assassination on the streets of our capital, or any equally cowardly murder on the banks of Reelfoot Lake. But I submit that all men are equal before the law, and the man or men who assassinated Carmack is entitled to no better treatment than those who killed Rankin. After filling Gibson county with the army and abusing its citizens, what does Patterson do, as governor of the state. He sends for Frank Fehring and Hersel Hogg and Wad Morris and bribes them to perjure themselves to send honest men to the gallows."

Several times the attorney repeated this charge, and then Judge Jones said: "Mr. Pierce, these remarks are highly improper, and the court will not permit you to make them. Gentlemen of the jury, there is nothing in evidence upon which the charge against the governor can be based."

### LOCOMOTIVE WORKS.

Largest in the World to Be Built at Ind.

Chicago, Jan. 8.—The largest and best-equipped locomotive works in the world is to be constructed on the property recently purchased at Gary, Ind., by the American Locomotive company. The plant will provide employment for from 12,000 to 15,000 men.

The deal, through which the company secures title to 130 acres of land at Gary, was completed yesterday. The plot was bought from the Gary Land company. None of the other plants of the American Locomotive company occupies more than fifty acres. Plans for the plant have already been drawn, and it is announced that the work of construction will begin immediately.

### CLIFF DWELLERS OPEN CLUB.

Tavern Club of Boston Helps in Ceremonies.

Chicago, Jan. 8.—Clubrooms of the new Cliff Dwellers' organization have been opened here with appropriate ceremonies. "The great hearth fire" was lighted with appropriate ceremonies last night after bits of fuel from the Tavern Club of Boston and the Bohemian Club of San Francisco had been piled on the embers. Each club sent driftwood from the ocean. President Roosevelt sent a greeting.

### The Rectum

Is one of the bodies most important nerve centers. These nerves become irritated by the formation of piles sometimes causing a general undermining of the entire system. Hill's Pile Remedy soothes these nerves by promptly relieving the cause of the trouble. In patented tube, \$1.00. D. F. Davis.

## WORK FOR EX-PRESIDENTS

Move to Place Them on Various Commissions

## THE SENATE CONTINUES

On Postal Savings Amendments—Inquiry as to Postal Service Expenses—Discussion of Bill Under Way; It Carries \$32,000,000.

Washington, Jan. 8.—To insure against an ex-president of the United States being "out of a job," Senator McCreary of Kentucky will make an effort before the close of the present session of Congress to have enacted this bill providing that former executives may be appointed as members of international commissions and representatives of the United States at conferences having to do with foreign affairs. The bill has been referred to a sub-committee of the Senate committee on foreign relations and several meetings already have been held to consider it. While it is likely the measure will be reported from the committee, it is not thought that it will pass the Senate. As one of the arguments against the bill, it was pointed out in the committee Wednesday that for at least four years to come it would apply only to Mr. Roosevelt, who al-

ready has taken steps in the mapping out of an active future for himself.

### Supply Bill Carries \$32,000,000.

The Senate committee on appropriations yesterday took up for the first time during this session the question of supplies for the administration of public affairs during the next fiscal year. The bill under consideration was the legislative, executive and judicial appropriation bill, which passed the House before the beginning of the holiday recess. The bill, as it comes to the Senate, carries a total of about \$32,000,000. The measure is now in the hands of a sub-committee of the appropriations committee, of which Senator Cullom is chairman.

### Investigating Postal Expenditures.

With a view of ascertaining how the \$222,000,000 appropriated annually for the expenses of the postal service is expended, the House committee on post office expenditures has started an investigation. Chairman Wagner's committee is engaged in examining conditions in the office of the purchasing agent.

### Postal Savings Bill Up Again.

It is expected that substantial progress will be made in the adoption of amendments to the postal savings bank bill when the Senate met to-day. After the bill has been made satisfactory to its friends it will be opposed by some senators. Mr. Bailey having announced that he would speak against it. Senator Aldrich is also active in opposition.

### Higher Salary for President Favored.

By an amendment of the legislative, executive and judicial appropriation bill which yesterday was reported to the Senate from the committee on finance the salary of the president of the United States is increased \$50,000, to \$100,000 a year, the increase to include the \$25,000 now annually appropriated for the president's traveling expenses. Amendments also were reported from the finance committee increasing the salaries of the vice-president and the speaker of the House from \$12,000 to \$20,000 a year. The amendments were referred by the Senate to the committee on appropriations, which if it approves them

will incorporate them in the appropriation bill, which is now under consideration, and report them back to the Senate for action.

Senate Bailey opposed any increase being made, but the amendments were acted upon favorably without a roll-call.

### Active and Retired Army Officers.

During the morning hour of the session of the House of Representatives yesterday, several measures were passed by unanimous consent. Among them was one requesting information from the secretary of war regarding what officers on the active list of the army are now performing duties which could as well be performed by officers on the retired list.

### Foraker to Speak on Brownsville.

On next Monday, Senator Foraker will speak in the Senate on "The Latest Phases of the Brownsville Affair," according to a notice given by him yesterday. "And I give further notice," said Mr. Foraker, "that I shall move to make the bill I introduced for the relief of the discharge of the soldiers the unfinished business of the Senate, and that I will press it constantly, in season and out, until it is disposed of."

### Another Special Message.

Prompt legislation to regulate the composition of illuminating gas in this city, as the result of the recommendation of Attorney General Bonaparte that the use of water gas be forbidden or restricted, is urged in a brief message sent to Congress yesterday by President Roosevelt.

### STATEMENT BY HAMMERSTEIN.

He May Give Up Grand Opera in Philadelphia.

Philadelphia, Jan. 8.—Oscar Hammerstein officially announced yesterday that in view of the difficulty he has had in placing a mortgage of \$400,000 on his new Philadelphia opera house, he is compelled to make known his intention of terminating the grand opera season in this city on Saturday, Jan. 23, or continuing the same in more inexpensive form.
